

\$400,000,000 FUND TO BE ASKED FOR NATIONAL DEFENSE

President Will Ask Congress to Give Army and Navy Bills First Consideration

WASHINGTON, Oct. 13.—Four hundred million dollars for national defense—an increase of approximately \$100,000,000 over last year—constitutes the amount which President Wilson and his advisers say should be appropriated by the next Congress for the army and navy.

As the time for the completion of annual estimates draws near, the President is giving preliminary consideration to the national defense budget, out of which it is hoped to lay down a stronger naval program than the United States has ever authorized, and a larger provision for the military establishment than has been customary in time of peace.

The President has had before him for several weeks the outline of a military policy framed by Secretary Garrison, after more than a year's study with officers of the general staff. With it the President is in hearty accord, regarding it as a conservative, well-balanced program. While the details have not yet been worked out, the increase in the regular army, probably from 80,000 to at least 120,000 men, and the creation of a reserve of perhaps 400,000 men through short-term enlistment service of citizens in military training, are said to be parts of the plan.

As yet, the exact appropriation to be definitely recommended for the army and navy, respectively, has not been definitely fixed. Indications are that the army budget for 1916-17 will be increased by at least \$50,000,000, while Secretary Daniels is figuring on obtaining a \$100,000,000 increase over the navy appropriation of \$148,000,000 of last year.

Must Cut \$50,000,000

When the President and the secretaries of war and navy confer next week, it is understood that an effort will be made to bring the total sum within the \$400,000,000 mark. At present, the combined total which the two branches of the service will submit to the President, it is said, would make about \$450,000,000. If the needs of the army and navy are to be met, the President is convinced that the United States should be very adequately prepared, not for war, but for defense. Much interest is manifest in the conferences the President intends having with members of Congress at which it is believed, the President's determination to urge upon Congress in his message a defense program to cost about \$400,000,000, has been emphasized in official quarters during the last few days, following Wilson's recent speech, saying the American people were convinced that the United States should be very adequately prepared, not for war, but for defense. GERMANS AGAIN RAID BRITISH CAPITAL; 8 KILLED

Thirty-four Wounded By Dropping of Bombs On London

FIRES STARTED

Officials Claim That the Material Damage Is Small

LONDON, Oct. 13, 12:30 a. m.—Zeppelin airships have made another raid over London, dropping bombs. Eight persons are declared to have been killed and about thirty-four injured. The material damage done is said to have been small.

The home office, shortly after midnight, made the following report on the raid:

"A Zeppelin raid was made yesterday evening over a portion of the London area, where a certain number of incendiary and explosive bombs were dropped. The material damage was small. A few fires resulted, but they were quickly put out by the fire brigade. The Admiralty will issue a statement today when particulars are available."

"At present it is only possible to say that no public buildings were injured, and that the casualties so far reported number two women and six men killed and about thirty-four injured, with the exception of one soldier killed, all these were civilians. These figures include all the casualties reported at 11:45 o'clock Wednesday morning."

ADMINISTRATION OF CABRERA IS ATTACKED BY EXILES

Invade Guatemala From Mexico; Garrison Revolts

BATTLE IS RAGING

Junta At New Orleans in Touch With New Rebellion

NEW ORLEANS, Oct. 13.—Revolution has broken out in Guatemala and fighting is in progress in the states of San Marcos, Huehuetenango, and Peten, according to advices received here by the Guatemalan Junta of the "so-called" committee.

It was declared an army of 1,700 men, commanded by exiled Guatemalans, had crossed the Suchiate river from the Mexican state of Chiapas, and that the federal garrison at Tuxtla, in San Marcos, is commanded by General Isidro Valdez, who was exiled by President Estrada Cabrera several years ago. It was said.

General Jose Leon Castillo, a prominent Guatemalan exile, now in New Orleans, regarded generally as a possible successor to President Cabrera in the event of a revolution, tonight refused to comment upon his part in the reported movement, but admitted that he had received copies of revolutionary proclamations.

GREAT CROWD HEARS GOVERNOR JOHNSON

Johnsonian Epigrams

A patriotic man or woman will think and then vote; a partisan just votes.

Non-partisanship makes a man stand before his people in his own character; partisanship enables him to masquerade behind his ancestors.

What do you prefer, that your State officials shall be elected upon the traditions and strength of a political party, or their ability to fill the job?

The State, after all, is the people's big business. Its manager should be elected because of his merit and ability, not because he belongs to a particular political party.

The issue presented in these measures is partisanship or patriotism—service to party or to people.

Without partisanship whole-hearted, undivided service can be rendered by a public official; with partisanship he divides his service. Blind partisanship has ever been the hope and the refuge of the unworthy politician.

In this struggle every product of the old machine, every man who was a part of it, every newspaper that received a bribe from it, every cotter that helped to make its iniquitous strength and power, are on the other side.

Instead of stamping out minority parties, non-partisanship will afford to the members of these parties, avowing just as before their principles, the same opportunity that is afforded to every other citizen, even though that other may be a member of the dominant party or his locality.

Non-partisanship will place all citizens of equal character on an equal basis, not giving to one the extraordinary advantage of a traditional appellation, nor attaching to another the prejudice accruing to a party which has few adherents.

It is a partisanship that gives us a Barnes and a Murphy in New York and a Lorimer and Sullivan in Illinois. It was partisanship that gave us a Southern Pacific control in California, and an absolute domination of both Republican and Democratic parties by a Southern Pacific representative. It is this sort of partisanship that stands before the people as his merits or demerits, his record, or lack of it, and his contemplated policies.

Every work that has been done in this state for the past five years, every advance that has been made, every bit of human legislation, all of the accomplishments, have been made, not because of one party or one man, but have been the result of the unselfish and patriotic effort of men and women of all political faiths and all political parties.

One instance has been that the first thought of the public servant shall be the welfare of the state and of the people, that every other consideration shall be subordinate and subsidiary, and that unhampered by political prejudices, unhindered by political ties, untouchable by ideological worship of a political party, the public servant can best perform his daily local duties.

PROPOSES END OF PARTIES IN POLITICS OF STATE

"Shot Gun Laws" Blew Up R. R. Machine He Declares

REPLIES TO TAFT

Governor Evokes Great Deal of Enthusiasm During Talk

It was a magnificent audience that filled the Fresno Auditorium last night to greet Governor Johnson and listen to the address of the executive in his presentation of facts as to why the non-partisan laws should be repealed by the people at the polls October 26. The governor was at his best, the great audience gave him inspiration, and in the hour and a half which he talked he had the audience with him, and they frequently expressed themselves on the telling points made by the governor by hearty and prolonged applause. The governor showed that non-partisanship is merely completion of a definite plan to secure efficiency in public servants and their undivided allegiance to the state, showed the character of the opposition and met the various objections which have been brought against the measure. His presentation took the big audience by storm. Said the governor: "This after all is the old, old struggle, the opposition of past and future, of memory and hope. It is the demand of conservatism for the existing order against the militant cry of reform for the best possible order. The content has been in every age and every clime and is not new in our own commonwealth. It is the old conservatism fighting the law of progress. The conservatism that is child of ignorance, of selfishness, of prejudice, of selfishness, seeking to maintain things precisely as they are, deprecating every change, and blindly praying for the perpetuity of existing institutions. The millennium will not come with non-partisan laws. But it is the last bridge to cross, for it gives the last weapon to complete the cycle of popular rule."

Wyllie M. Giffen Presides

It was 8:15 o'clock when Wyllie M. Giffen, who had been elected as chairman of the meeting, called the big assembly to order. Seated on the stage with him were a number of vice presidents, who had been selected by the committee, as also a number of prominent citizens, among whom were the following:

George W. Jones, Senator W. F. Chandler, Chester H. Rowell, A. V. Lisenby, George Waterman, W. A. Fitzgerald, Frank Homan, Louis Gundelfinger, G. L. Aynesworth, John Graves, Charles Flinn, Raymond G. Lindley, J. R. Dickinson, H. H. Welsh, George C. Roeding, George B. Hibbard, John Fairweather, Judge Milton T. Farmer of Kern county, Edward Ayres, Louis Trumble, T. F. Smith, mayor of Coalinga; A. B. Shaw, editor Coalinga Record; C. C. Kratzer, Roy Richards, Wm. H. Fenneman, Mrs. W. F. Chandler, Mrs. Chester H. Rowell, Mrs. A. V. Lisenby, Mrs. George Waterman, Mrs. W. A. Fitzgerald, Mrs. Frank Homan, Mrs. Louis Gundelfinger, Mrs. G. L. Aynesworth, Mrs. Lucy Hatch, Mrs. John Graves, Mrs. J. E. Dickinson, Mrs. H. H. Welsh, Mrs. George C. Roeding, Mrs. Bessie K. Larkins, John Fairweather.

Germans Lose Again

COPENHAGEN, Oct. 13, via London, 12:22 p. m.—Another German steamship has been destroyed as a result of the British submarine campaign in the Baltic, undertaken to prevent Germany from receiving supplies from Scandinavia. The German steamer Walter Leonhardt of 1,251 tons gross was blown up and sunk in the Baltic yesterday by a British submarine after her crew had been permitted to take to the small boats.

Bulgarian Division Cut to Pieces

PARIS, Oct. 14, 1:30 a. m.—Private advices are to the effect that a Bulgarian division was almost annihilated in a fierce battle near Kragevatz, Serbia, says a dispatch to the Havas agency from Bucharest, dated Tuesday and delayed in transmission.

London in Darkness

LONDON, Oct. 13.—(Correspondence of The Associated Press).—London's new lighting regulations went into force today and a city of blinded windows, screened, slightly, shrouded street lamps and generally subdued and smothered appearance has taken on an even darker hue. In vain one looks for the blaze of light which Leicester square and unless he is adept in finding his way around the city at night he is likely to become lost in an obscurity as complete as that of the traditional London fog.

URGES WOMEN TO MARRY CRIPPLES OF BRITISH WAR

LONDON, Oct. 13, 4:30 p. m.—The Rev. Ernest Houghton, a Bristol rector, has started an appeal to patriotic women of the nation to give their lives to ameliorate the condition of maimed heroes of the war by marrying them. He has launched a "league for the maimed" and contends that the example of France shows that unions thus arranged promise a greater percentage of happiness than is customary from the methods in England, because they are based upon a high degree of unselfishness. Strict selection is provided as to the identity of women prepared to immolate themselves after the plan of the league until arrangements for their marriage are complete.

French Liner Struck

PARIS, Oct. 13, 10:30 p. m.—The Messageries Maritimes liner Yunnan has been torpedoed, presumably by a Mediterranean sea. The vessel did not sink and her crew of ninety men took to the boats and were safely landed. The Yunnan is a vessel of 6,474 tons. She was last reported as having sailed from Algiers, July 16, for Dardanelles, and the vessel probably is in the French government service.

TURKS VIOLATE AMERICAN SEALS ON CONSULATE

PARIS, Oct. 13, 2:45 p. m.—The American embassy informed the French Foreign Office today that despite the protests and opposition of the American consul at Beirut, Syria, the French consulate in that city, to which American seals had been applied, had been violated by the Turkish authorities who began an examination of the consulate archives.

SOUTHERN PACIFIC HAS A BIG BILL AGAINST MEXICO

SAN FRANCISCO, Oct. 13.—The Southern Pacific Railroad company of Mexico, according to a reported statement made today by E. W. Randolph, president, will present a bill of damages of \$12,500,000 to the first stabilized Mexican government. He also said that when satisfactory political conditions obtain in Mexico, that the company will spend millions to extend its railroad, now connecting Nogales with Guadalupe, 350 miles southwards to Mexico City.

REPORTS ON CANAL SLIDES

WASHINGTON, Oct. 13.—A detailed account of the landslides which have caused the Panama canal to be closed indefinitely to commerce, was cable news from the war department today by Major General Goethals.

Day in War Area

With the Germans and Austrians pressing southward and eastward through Serbia, the world is waiting expectantly the great battle that must come when the Teutons and their Bulgarian allies finally meet the combined forces of the Serbs, the British and the French.

The Germans and Austrians are encountering stubborn resistance at the hands of the Serb forces, which have been left behind to check them, and Berlin admits that this resistance has been sufficiently strong to retard somewhat the Teutonic forward movement.

The Teutonic line of march is reported by Berlin, but Nish declares that the Teutons are paying a heavy toll, especially before Lipa, where "the battlefield is covered with bodies."

So far as is known, the Russian army which French Premier Viviani announced was to fight shoulder to shoulder in the Balkans with the French and British, has not yet entered the arena.

In Russia, the hardest fighting seems to be in the Transilvania, where Berlin says the Russian attack against the German line which is endeavoring to capture the city broke down under the German artillery fire.

These countries maintaining their neutrality.

The Russians are credited with another great victory along the Strips, on the southeastern Galician front. They have pierced the last line of the Austro-German right flank.

On the western line the Germans in Artois, have made violent attacks against Allied positions, preceding them with terrific bombardments. At one point they succeeded in penetrating trenches which had been badly shattered by shells, but everywhere else were repulsed with heavy losses, according to Paris. Elsewhere along the French and Belgian fronts, artillery duels have predominated.

The Russian victory in Galicia.

FIFTEEN NAMES ARE SUBMITTED

Telegraphed By Miners' Union to Managers At El Paso

CLIFTON, ARIZ., Oct. 13.—The names of fifteen union men were submitted today at a mass meeting of strikers, as representatives from whom the mine managers at El Paso are expected to select five as an acceptable conference committee. The fifteen men previously had been selected by the strike committee.

After the mass meeting had ratified the selection of the executive committee, the names of the fifteen men were telegraphed to the mine managers at El Paso by Sheriff J. G. Cash, who returned today from El Paso. Sheriff Cash expects to escort the new conference committee to El Paso, where he said he anticipated no difficulty in this attempt to secure a conference.

Sheriff Cash, in his message, asked the managers to reply at the earliest convenient time. He said he hoped to start for El Paso tomorrow, with the new conference. Adjutant General C. W. Harris, also expected to accompany the committee, if one is selected by the managers from the fifteen eligibles.

Union leaders who sought legal advice as to a proposal to have the county vote bonds to secure funds to feed the strikers, were told by counsel that such a bond issue would not be legal.

25-YEAR TERM FOR MERCED KIDNAPER

A. E. Fisher Punished for Attack On F. W. Henderson Last May

(Special to the Republican)

MERCED, Oct. 13.—Albert E. Fisher, who was convicted last week of the crime of kidnaping F. W. Henderson with intent to commit robbery and extortion, was sentenced by Judge J. J. Trumbull this morning to twenty-five years' imprisonment at San Quentin. A motion made by Fisher's attorney for a new trial, which the judge denied. The case will be appealed to the Appellate Court. No writ of habeas corpus was asked by the kidnaper's counsel today, and unless this is done Fisher will be taken to San Quentin at once to begin serving his sentence. He faces the higher court passes on the case.

Henderson was kidnaped May 26, on the highway, six miles from Merced, where Fisher and another man, said to be Robert A. Kirkman, attacked the city attorney and a justice of the peace, forced him to enter an automobile. Henderson was handcuffed. They told him, Henderson testified, that they were going to take him to Reno, and there compel him to sign affidavits and promissory notes. Henderson escaped by leaping from the moving car at a crowded street corner in Stockton. The two kidnappers escaped. Fisher was captured later in Los Angeles. Kirkman is still at liberty.

Considering Names

EL PASO, Oct. 13.—Representatives of the Colorado Arizona copper mines said tonight that no answer to the latest conference proposal of the strikers would be given before tomorrow at the earliest. The mine operators will investigate the names of the fifteen men proposed by the strikers at a mass meeting at Clifton late today, in order to determine whether any five of them are acceptable.

E. E. Ellwood, general counsel for the Phelps-Peoples interests in the Clifton district, stated that the managers were prepared to keep their mines shut down indefinitely, and that they would have no dealings whatever with the Western Federation of Miners.

"The laws of Arizona prevent us regarding our own property," he said, "therefore, it is up to the state and local authorities to guard it for us. We are not worrying about the situation; we are sitting still and doing nothing. The state authorities, the local officers and the military, are in sympathy with the strikers, and they are in full control of the mines."

COTTON FUTURES ACT IS KILLED

Federal Judge Declares It Should Have Started in Lower House

NEW YORK, Oct. 13.—The cotton futures act of August 18, 1914, also known as the "Lever law," was today declared unconstitutional by Federal District Judge Hough because, as a revenue measure, it originated in the Senate instead of the House of Representatives as required by the constitution.

The decision was rendered in a test suit brought by Samuel T. Hubbard of the cotton brokerage firm of Hubbard Brothers and others to recover \$1000 paid under protest to John Z. Lowe, Jr., collector of internal revenue, under the provisions of the law. Judgment was rendered in favor of the plaintiffs.

WASHINGTON, Oct. 13.—Attorney General Gregory declined tonight to indicate whether the department of justice would appeal from the decision of Judge Hough holding the cotton futures act unconstitutional. He said he could make no statement until he has had an opportunity to read the decision.

ENGLAND FAILED TO GET BIG LOAN

NEW YORK, Oct. 13.—In connection with the flotation of the \$500,000,000 credit loan to Great Britain and France, it became known today that Great Britain had endeavored unsuccessfully to obtain a loan of \$200,000,000. She was unable to obtain a promise of more than \$100,000,000, it was said. This was inadequate, and the next step was the sending of the Anglo-French commission to New York.

BRITISH AUXILIARY BLOWN UP BY MINE

ST. JOHNS, N. S., Oct. 13.—Word was received tonight that the British auxiliary fleet, operating in the North sea, was blown up by a mine yesterday. Five naval reservists from this colony were among those lost. The drifter was engaged in picking up German mines.

SEND JORDAN TO ASK WILSON TO CALL MEETING OF NEUTRAL NATIONS TO PRESS FOR PEACE

SAN FRANCISCO, Oct. 13.—The International Peace Congress adopted a resolution today directing David Starr Jordan, president of the congress and chancellor of Stanford university, to proceed to Washington, D. C., at once and urge President Wilson to call a conference of neutral nations, to be a permanent peace body, to bring about peace. He will leave tomorrow.

Another resolution, adopted, declared that the peace congress looked with apprehension on the presence on advisory boards of the United States government of manufacturers of war munitions, or of men interested in the sale of supplies to the belligerent European nations.

The congress believed the warring nations were not willing themselves to begin peace negotiations, but would welcome, or at least, not oppose, affirmative action by a neutral agency endeavoring to bring about peace, based on international justice.

Representatives of labor and women's peace movements will be asked to attend the proposed conference of neutral nations.

Delegates said they believed a large labor and feminine representation would tend to influence delegates to strive for a truce.

The congress, in another resolution, advocated the formation of a committee of representatives of all forces interested in the maintenance of international peace, including those from the labor bodies, and women. This committee will be expected to establish a clearing house and further a campaign of education, tending to strengthen the peace movement.

The national Congress was appealed today to adopt an immigration policy based on the just and equitable treatment of all races. The peace delegates want a policy that will grant citizenship regardless of race or nationality and to provide that all aliens should be under the protection of the government.

President Wilson's policy was also approved by the peace congress.

"Hypothetical" Dangers

A resolution was adopted stating that the congress recognizes that to the President is largely due the fact that the republic has remained law-abiding, despite currents of fear, hate and excitement. The congress also expressed, in a resolution, its opposition to the current widespread demand for preparation against hypothetical dangers. The delegates agreed they did not urge disarmament under present conditions.

"A sweeping victory on either side," another resolution read, "would not solve Europe's problems, being sure to leave a legacy of hate with seeds of future war."

The congress urges the calling of a third Hague conference at the conclusion of the war and said delegates should represent the civil and not the military authorities of their respective nations.

The last resolution deplored every attempt to inaugurate a European war, but that the establishment of military training courses in the schools was inconsistent with American ideals and led towards a system of conscription.

GREECE REFUSES TO HELP SERBIA

Says Treaty of Alliance Did Not Contemplate Present Situation

ATHENS, Tuesday, Oct. 12, via Paris, Oct. 13, 7:20 p. m.—The Greek reply to Serbia's representations that the Bulgarian attack on Serbia completes the act of aggression contemplated under the treaty of alliance between Greece and Serbia, and asking if the Greek army is ready to enter action against Bulgaria, was delivered today.

Beginning with the declaration that the "royal government greatly regrets that it is unable to accede to Serbia's request," the reply explains that the alliance of 1913, while foreseeing Bulgarian aggression, was limited to preserving an equilibrium among the Balkan states.

"The preamble of the treaty," the reply continues, "defines it as a purely Balkan character, not applying to a general conflagration. Both the treaty of alliance, and the military convention completing it, provide in the first article that the contracting parties contemplated only isolated attacks by Bulgaria against one of them."

The note minutely argues that the treaty does not cover the situation which has arisen today, a situation in which "Greece must destroy herself without hope of saving Serbia, which cannot wish such a result." It is added that "constant interests demand that the Greek forces still be kept in reserve for a better use later."

The note concludes by declaring that Greece will continue to give her every assistance and facility compatible with Greece's exclusively international position.

## ILLNESS FORCES DELCASSE TO QUIT

Premier's Conduct of  
French Foreign Affairs  
Given Approval

PARIS, Oct. 13.—(9:25 p. m.)—The Chamber of Deputies this evening adopted a resolution of confidence in the government. The vote was 372 to 9.

The proposal made in the Chamber of Deputies by the opponents of the government for a secret session was defeated by a vote of 303 against to 290 for.

PARIS, Oct. 13.—(11:50 p. m.)—The resignation of Theophile Delcasse, the foreign minister of France, was announced at noon today. Premier Viviani presented the resignation of M. Delcasse at a conference of cabinet ministers and the retirement was sanctioned.

Premier Viviani will take the portfolio of foreign affairs with the presidency of the council.

Foreign Minister Delcasse's resignation aroused widespread comment in parliamentary quarters, owing to the prominent part he has taken in shaping the foreign policy of the government since the beginning of the war, when he resumed his old place at the head of the foreign office. His retirement at this particular moment, when the Balkan crisis has become acute, caused some surprise.

One of the main reasons assigned for his retirement is that he is suffering greatly from fatigue, culminating in a recent sick spell amounting to nervous exhaustion as a result of directing France's foreign policy.

Premier Viviani virtually has been directing the foreign affairs the last

five days, since it was known that Delcasse was indisposed.

It was decided that Premier Viviani today should for the first time speak as president of the council and as minister of foreign affairs relative to the Balkan situation.

No Discard  
The premier declared that there had been no discord between Delcasse and the government upon the Balkan situation. "I affirm that no discord has occurred between the minister of foreign affairs and his colleagues. All the decisions have been taken in perfect accord, and I have nothing more to say to the chamber."

"We do not," he added, "take responsibility for the expedition to Salonika. It is the government which has taken it. France has taken some engagements that it cannot desert. It is therefore, simply a question of organizing our military forces and sparing the blood of our soldiers."

Prof. Delcasse asserted that the foreign affairs, army and navy committees were in agreement and that the French cabinet, as a whole, was in agreement with the premier. He said that Germany and Bulgaria were preparing to co-operate and that steps should be taken to prevent it, also that adequate measures should be taken to force the Bulgarians and the Serbs to accept the armistice.

Prof. Delcasse concluded his remarks by saying that if feeling was running high, it was merely on account of anxiety that the French holding expedition should be organized properly.

Delcasse's resignation was made an appeal for harmony.

"The republic has two perils," he said; "they are the Germans and our own political quarrels. For forty-five years we have been seeking a man to govern you."

"Without you have—an Orleans or a 'Gibourg'—a voice called out."

Delcasse pleaded for the members to lay aside their differences in order to bring about a final victory.

Premier's Address  
The members resumed an attentive silence when Premier Viviani arose.

The premier began by saying that he did not wish to see the debate degenerate into "political pugilism," and he declared that this was no longer the time for discourse, but for brief, clear explanations.

He said that while the government wished to act with parliamentary committees, it was acting also with the allies of France.

"I understand why the chamber proposes questions," said he, "but neither here nor anywhere else where the interests of France are not alone in question it is possible to reply to every interrogation, no matter how legitimate. The government has no longer the right nor the possibility of explaining military and naval plans of an expedition undertaken in common with our allies. It appeared to us impossible to let Serbia be assassinated either from in front or from behind."

The premier, replying to Professor Painleve, said:

"Results have been committed, but the government has not only to take into account the suggestions of committees; it must also arrive at an understanding with its allies. If we were unable to act quicker, it was because our action was subordinated to other duties."

"Yes," continued the premier, "intervention was necessary, but in accordance with the general staffs and with-

## PROSPECTIVES ALL EXCUSED AS JURORS

Much Wrangling Marks  
Day in Trial of  
Schmidt Case

LOS ANGELES, Oct. 13.—The four jurors already sworn, who have been in the jury box for the past few days, were all that remained today in the trial of Matthew Schmidt, on a charge of murder in connection with the destruction of the Los Angeles Times building, October 1, 1914. The eight jurors, temporarily passed, were removed by additional peremptory challenges, five excused by the defense and three by the prosecution.

The defense, through the action of its twenty challenges and the prosecution four of its ten.

Judge Willis then ordered eleven names drawn from another department of the Superior Court. Former Judge J. M. Egan, chief of court for Schmidt, interposed an objection. He demanded a trial of the question of facts, requesting that witnesses be sworn to ascertain the manner of the drawing of the venire. He renewed his contention that the venire was illegally drawn because it was not in accord with the new state law, which went into effect in January, permitting non-property owners to act as jurors as well as taxpayers.

James Noel, secretary to Judge John M. Egan, presiding judge of the Superior Court, testified to the drawing of the venire, which, he said, was made up from names submitted by the judges of the various departments.

Fairall demanded the records. After a long delay, Judge Willis adjourned court until tomorrow, until the records could be produced.

At the morning session, Fairall vigorously protested at what he termed Judge Willis' haste in excusing a juror who said he was a day laborer, after the prosecution had challenged the juror. Counsel for the defense had previously drawn from the prospective juror, J. A. Horton, an admission that he held a positive opinion that the building was destroyed by a gas explosion. Despite this admission, the defense passed the juror and forced the prosecution to interpose a challenge.

Without forgetting the essential duty, without weakening the French front, come what may, it is on the French front that the decision will be made here. We were not weakening our front when we went to Salonika.

Must Keep Secrets.  
"The finding was made and continued, but it is undesirable to state the exact military strength. The government gives formal assurance that the naval and military plans were prepared carefully and methodically by the general staffs of the allies and insofar as preparation is concerned they were not destroyed by a gas explosion. Despite this admission, the defense passed the juror and forced the prosecution to interpose a challenge."

"Then what do you want? It is time to speak clearly and only in public session. I have no right to bring here diplomatic or military secrets for I hold them from character which enable them to the government to be used but not revealed."

The question now is whether, through the general assurances it gives, the government may leave here with your confidence. Under these tragic circumstances you must say if the government has or has not the confidence of the chamber. I ask for a vote of confidence."

After the premier had concluded, the attacks on the military were resumed by Deputy Charles Chaumet.

Chaumet said that if the Salonika expedition was in the same hands as that to the Gallipoli peninsula, the chamber had reason to distrust its results. Prof. Painleve and M. Renaudel, a Socialist member, expressed themselves as not satisfied with the government's utterances, which they regarded as evasive, and enable the members to bear their responsibilities.

The resolution of confidence was then proposed in the following form: "The chamber, confident in the government and approving its declarations, passes to further business."

Theophile Delcasse has been one of the foremost French statesmen during the last twenty-five years, having led his credit to the nation's aid in the formation of the Anglo-French entente cordiale. He was also credited with an effective influence in the settlement of differences between Russia and Great Britain, making possible the formation of the Triple Entente.

As foreign minister, in a former cabinet, M. Delcasse aroused the bitter hostility of Germany where it was believed his policy aimed at the political isolation of that nation.

ARGUE RESTRICTION  
OF IMMIGRATION

WASHINGTON, Oct. 13.—The Supreme Court was asked today to pass upon the asserted power of federal immigration officials to exclude from the country immigrants bound to cities in which there are many unemployed. The suit was brought by two Russian Khaberdians, who were denied admission because immigration officials at New York found they were destined for Portland, Ore., where reports of industrial conditions at that time indicated it might be impossible for them to find employment. Attorneys for the aliens emphasized the importance of the decision to future immigration.

So much time was taken by the argument of this case that the court failed to reach the income tax cases, next on the docket.

PIMPY? WELL, DON'T BE!  
People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Olive Tablets.

Dr. Edwards' Olive Tablets are the successful substitute for emetics—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which emetics does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cured with "a dose of brown sugar," a breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

Dr. Edwards' Olive Tablets are sold in all drug stores, or you may order them from The Olive Tablet Company, Columbus, O.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

The Olive Tablet Company, Columbus, O.

## The 'Nemo' Corset Does Things

When fitted by a Nemo-trained Gottschalk corset fitter, the NEMO is a perfectly satisfactory corset. It is the crowning triumph of a long series of inventions and experiments.

An examination and demonstration will show why we make such positive claims.

### Nemo Corsets Are Sold Only By Gottschalk's

Gottschalk's have a complete stock of NEMO corsets; their fitters are trained in the correct fitting methods of the NEMO Institute, and Nemo women can buy NEMO corsets here to best advantage. Models for slight, medium and stout figures.

## BRITISH JURIST ON U. S. SUPREME BENCH

Baron Reading Invited to Place With Chief Justice White

WASHINGTON, Oct. 12.—For the third time in the memory of court officials, a foreign jurist today had the honor of sitting with the Supreme Court of the United States. The visitor was Baron Reading, lord chief justice of England, in America as chairman of the Anglo-French financial commission.

When the court convened for the afternoon session, Baron Reading walked into court with Chief Justice White, who ushered him to a seat at the right of his own place, in a chair placed on the bench for the occasion. For an hour and a half the head of the English law courts listened to arguments on the constitutionality of the North Dakota tax on express receipts.

So far as recalled here the distinction shown Baron Reading has been accorded only twice before—to Lord

## SUES HIS UNCLE

DR. N. D. HILLIS

NEW YORK, Oct. 13.—Complaint in the libel suit of Percy D. Hillis against his uncle, Dr. Newell Dwight Hillis, pastor of the Plymouth church, Brooklyn, were filed late today in the office of the county clerk in Brooklyn. Percy D. Hillis demands \$50,000 damages for alleged libelous statements which he charges his uncle made in an abandoned coal mine. The libel was published in Brooklyn and Portland, Ore., and which the plaintiff averred injured him in his business standing, reputation and good name.

### MORGAN ESTATE DISPUTE.

DENVER, Colo., Oct. 13.—The federal court today issued an order authorizing the receiver of the Wootton Land & Development company, involving holdings of the late J. P. Morgan, Sr., to borrow \$10,000 to operate an abandoned coal mine. The litigation grew out of a controversy between the younger Morgan, the executor of his father's estate, and Colonel G. A. Owenby, a partner of the elder Morgan in the company's holdings at Wootton, Colo.

Coleridge, when lord chief justice of England in 1833, and to Lord Herschell, British lord high chancellor in 1899.

## JUST GRAB THEM

Much to the grief of San Francisco "sports," Chief of Police White has gone the whole route in the gambling shutdown, and has even suppressed the ten-cent "lucky" in the cigar stores. Many of these boards are now found the owners will be arrested under the anti-gambling laws.

The San Francisco chief is quite right, except in one thing. The only way to suppress gambling is to suppress it. If any particular sort is tolerated, on the ground that it is too petty to bother about, it inevitably becomes the entering wedge for larger things. The gamblers will stop exactly where they are made to stop, and nowhere else. The easiest and the only safe place to draw the line is right before the beginning. These cigar-store punch-boards may or may not do serious harm—though personally we think they do—but if they are tolerated, bigger things will make their way through the aperture they opened.

But if Chief of Police White thinks the way to make this suppression effective is to arrest the proprietors, he will soon find himself mistaken. San Francisco juries will not convict them. Besides, what is the use? It is so much easier simply to swipe the boards. Let every patrolman be instructed, whenever he sees one of these boards, simply to pick it up and carry it off. The boards are of no use to the proprietors unless they are visible, and if they are where customers can see them, so can the police. The patrolman need not have any warrant, nor make any charge or explanation. Simply carry the board off and don't bring it back, and repeat the process as often as a new board appears. If the proprietor does not like it, let him "sell it to the judge."

He will have difficulty doing that for the court will not listen to him. Under the law, gambling devices have no rights, and can therefore suffer no wrongs. It is no crime to steal them, and they belong to whoever has them, regardless of how he got them. No dispute regarding their ownership or possession can even get into court. If the patrolman, or the "captain's office," is in physical possession of them, that is all the title that is needed—unless some one else acquires equal title, by grabbing them. It is a subject on which there are no laws, no rights and no wrongs; for the property is, by law, outlawed. The police, by just taking possession, will not have to prosecute anybody. Rather, it is for the other fellow to prosecute the police. And, if he does, no court will even hear his case.

The method is simple and certain, and it costs nothing.

## ZONE OF QUARANTINE

Governor Arthur Capper, of Kansas, has telegraphed a protest to Governor Johnson against the action of State Veterinarian Keane in including Kansas in the foot-and-mouth quarantine, thereby shutting out Kansas stock from exhibiting at the Panama-Pacific Exposition. Governor Capper, voicing, of course, the protest of the cattlemen of his state, points out that there is no foot-and-mouth disease in Kansas, and asks Governor Johnson to send a veterinary to Kansas to ascertain the facts.

There is no need to send a veterinary, since the facts are conceded. There is no foot-and-mouth disease in Kansas. Neither is there in Iowa. But there is in the states immediately east, on which Iowa and Kansas border. Dr. Keane's theory is—and in this he is backed by practically all the stock raisers in California—that a quarantine line is not enough. There must be a quarantine zone. If the line is drawn at the westernmost boundary of the westernmost state in which the disease occurs—and then at the westernmost boundary of the next tier of states, one tier further west—then the protection is as safe as quarantine can make it. The disease may crawl across a line, but it can not leap a state.

## MORE "MACHINE"

Governor Johnson has added one more "machine"—or, rather, benchwoman—to his "machines." Miss Ethel L. M. Tate of Los Angeles, has been appointed as head of the state bureau of tuberculosis, under the board of health, at a salary of \$2,000 a year.

To be sure, Governor Johnson did not appoint Miss Tate; the civil service commission did it. And they did it, not as a personal selection, but because Miss Tate possessed the highest examination on technical knowledge and on successful practical experience, out of a dozen applicants. Also Miss Tate is one of the best-trained experts in America. In the organized fight on tuberculosis, and her knowledge, skill and devoted enthusiasm will save the state hundreds of times her salary, besides invaluable lives, every year. Her appointment is not politics, nor even "patronage," since nobody gave it to her; she earned it herself.

But all these things can be said of plenty of other appointments which have been berated as forming a "machine." Therefore, we may as well include Miss Tate, for to be a member of that sort of a "machine" founded on merit and devoted to service, is indeed an honor.

## SOME VILLAGES

Let those who are inclined to measure metropolitanism by booze, and to despise temperance because it comes from the country, pause to drink a dose of health to the three practical cow-town villages in the world's news at the moment.

London has not gone quite "dry." Drink may still be sold, under limitations, for five hours each day, two bottles and a half at noon and two hours and a half in the evening, for lunch and dinner. But it is a penal offense, with a \$200 fine, to "treat" or buy drink for another, and it is forbidden to sell drink on credit or give it away. Fair warning is issued that if these measures do not stop at least half of the drinking and prevent most of the harm of the other half, more drastic steps will follow.

Chicago was "dry" last Sunday, of necessity. The law has closed the saloons of Chicago on Sunday for years, but Chicago's ruling classes looked down with true metropolitan contempt at such a lay law, enacted from the country, and nobody enforced it. Even Mayor Thompson, they charge, signed a written pledge not to enforce it. But a grand jury, backed by the law, asked some questions which were hard to answer, and the mayor ordered the saloons closed, like prostitutes and gamblers, saloons go not obey laws. They obey orders. And they obeyed these orders. Now to Chicago mayor or chief of police will ever again dare face inquirers and say with a straight face that he "can't" enforce the liquor laws.

New York has put a lot of its saloons out of business with a \$1,500 license, (San Francisco's, in the "good old days," was \$54) and reports are that most of those remaining are losing money for lack of patronage. Comparatively few of them, the liquor men say, could now survive without "outside aid"—which means either graft or subsidy.

London, New York and Chicago, all in the "dry-town" class. Perhaps, after a while, it will not be so contemptible even to come from Selma, or go to church.

## TOLD THE TRUTH

Count von Bernstorff sought to discredit the veracity of the Catholics of the Armenian church by pretending that he was writing under Russian censorship. But now comes the Pope and protests in an autograph letter to the Sultan, based on information which he received from his representative in Constantinople. If the Catholics were writing "under Russian censorship," the Vatican prelate at Constantinople would be writing "under Turkish censorship," which would certainly not exert him to exaggerate the Armenian massacres. Of course neither of them wrote under censorship, nor would have submitted to censorship. Great prelates may submit to martyrdom, but not to that sort of prostitution of the veracity of their offices. Count von Bernstorff should have known better than even to hint at such a possibility.

Incidentally, the German censorship ought to have suppressed Count von Bernstorff and his monstrous article in the Berliner Tages Zeitung in which he declared that there was nobody's business what the Turks did to the Armenians, and that "the peace of the German empire and of every individual German is at the side of our Turkish ally, and that without criticism." War may sometimes require the doing of abominable things; but it never justifies defending them. Christian Germany at least owes to Christianity the poor tribute of hypocrisy.

And Turkey, for these outrages, is accountable to God, and will be made accountable to men.

## "CRUELTY"

General von Bissing, German governor of Helmsin, has forbidden the keeping of some birds with their eyes blinded, to make them sing better. The artificial blinding of birds," says General von Bissing, "is a cruelty which I can by no means tolerate."

By no means! It is not nice to blind birds, nor to catch mice in traps that hurt but do not kill. Kind-hearted people must not do such things.

Not! Rather, they must sweep their legions over a smiling country like a blast of flame; they must wipe out good faith from the dealings of nations and tear the word of honor to a scrap of paper; they must trample under iron heels a nation with which they have no quarrel and transform its people overnight from the busiest hive of industry on earth to starving supplicants for the world's charity; they must reduce them to discipline by dragging young boys out of garrets and shooting them before their parents' eyes; they must kill and maim millions of men, with hellish efficiency; they must storm trenches behind a cloud of chlorine, which scalds out the eyes of men and kills them in slow choking agony; they must burn and kill and maim and starve and torture and rape; they must blast and devastate, leaving ruin behind them and spreading terror ahead—all this they must do in the name of God!

But prick out the eyes of canary birds, indeed! That is "a cruelty which I can by no means tolerate."

## NEVER RIGHT

The Chronicle predicts an unprecedentedly light vote at the referendum election this fall. It is just possible that the Chronicle's prediction may turn out to be correct, but if so, it will be the first time in the Chronicle's record, since the Chronicle predicted, seven or eight years ago, on the occasion of the first Lincoln-Roosevelt League primary in San Francisco, that it would be "the lightest vote ever known," and it turned out to be the heaviest vote ever known, the Chronicle has never once got right, in predicting the light or heavy vote at an election.

### The Gas Meter

The Gas Meter is to mechanism what Baron Munchausen is to literature. It is inaccurate, protected by a patent, and its operation is a mystery. It is also the nearest approach to perpetual motion yet discovered. Leave a gas meter absolutely alone in a deserted house for months at a time and it will work quietly but faithfully without stopping even for meals.

The gas meter is used by gas companies to prove that the consumer has been burning his lights all night and has been sending up billions from the roof. It is a small box with face and hands like a clock. Here the resemblance stops, however. You cannot turn the meter back and it does not run down. It does you no good to neglect the gas meter. It keeps on going anyway. The man who will put an attachment which will enable a man to stop his gas meter by forgetting to wind it will earn the gratitude of all mankind.

The gas meter brings light to the home, lightness to the pocket-book and aviation to the temper. Like the Bible, it is always causing trouble by being read from different standpoints. The only difference between a theological conference and the office of a gas company is the first of the month is the fact that the language used in the conference is used backward in the gas office. A man may be able to read Greek, Latin and Sanskrit at sight, but he will find for all that he can't read as much gas out of his meter reports the use of 15,000 feet of gas while the family has been in the house through the sill-cock on judgment even with an axe. The confidence of a gas company in its meters is one of the most touching examples of perfect faith in the world. If a gas meter reports the use of 15,000 feet of gas while the family has been in the house through the sill-cock on un-

"The gas meter brings light to the home, lightness to the pocket-book and aviation to the temper."

## This Is the Month We Celebrate Edison Day

Thursday, October 21st, is the Thirty-sixth Anniversary of Thomas A. Edison's invention of the incandescent lamp

A big prize contest, ending on that day, has been inaugurated for all the boys and girls in the land. Are you in on it? If not, see the electrical supply dealer or merchant in your town who sells Edison Mazda Lamps. He will give you full particulars.

Light: More Light; and now More Light at less expense—these have been the steps of progress through the 36 years' development of Edison's first lamps to the economical, efficient lamps of today.

## C. W. A. CRITICISED; SELLS RAISINS TO OUTSIDER

Wylie Giffen Sends Sharp  
Letter to Wine  
Association

To Organize Wine Grape  
Growers in 1916  
Says Madison

The California Wine Association has sold its 1915 raisin crop to J. B. Underwood & Co., independent packers, and this act has aroused considerable feeling among officials of the California Associated Raisin Company, the growers' organization. The Sun-Maid Herald, the Associated publication, this month published copies of a letter and a telegram sent by Wylie Giffen, president of the Association, to officers of the Wine Association regarding the deal. This correspondence took place before the raisins were sold, but the Wine Association had announced it would receive bids.

In the same publication, announcement is made by James Madison, vice president and general manager of the Associated Raisin Co., that he will probably be taken next year to organize the wine grape growers in an effort to get more than 6 cents a gallon for the wine contained in their grapes.

The telegram and letter sent by Giffen follow:

(Telegram)  
Fresno, Cal., Sept. 14, 1915.  
Mr. B. R. Kittredge,  
Care California Wine Association,  
4010 West 14th St.,  
New York.

Mr. Beveridge: Just informs us that you expect to sell your raisins on the 25th of this month to the highest bidder. This necessarily means that they go to the independent packers, as we buy only on the regular contract and their price will undoubtedly be a half a cent higher than ours. By the sacrifice of sixty-five hundred growers this organization was made possible, and it seems unthinkable that a great organization like yours should be willing to take advantage of their efforts without contributing your share. Our very existence depends upon the support of the growers and the value of land you own in this valley depends on the prosperity of at least one hundred fifty thousand people dependent upon this organization, and today their eyes are upon you, and you cannot afford, and we cannot afford, to have you lend your support to interests inimical to ours.

WYLLIE G. GIFFEN,  
September 18, 1915.  
California Wine Association,  
108 Townsend Street,  
San Francisco, Cal.

Attention Mr. Wetmore.  
Gentlemen—Your Mr. Beveridge informs us that you have decided to sell your raisins to the highest bidder and will accept bids on the 25th of this month. This necessarily means that your crop will go to the independent packers, as we have but one price, which is, as you understand, 3-1/4 for Muscats, 3c for Sultaninas and 3-1/2 for Thompsons. The raisins that we sell, with all their bring more than that at the final settlement to be made a year hence.

The independent packers will undoubtedly pay you a higher price. If you take the figures that we pay at time of delivery, their price will seem much higher, but on the seedless varieties there is no question but what our final settlement will come within about a half cent of what they will offer. I wish I could say to you that I felt that our final settlement will equal what they will pay you, but I do not want your crop on anything but a fair basis. As you well know, we are carrying the burden for the whole community and the independent packers and the growers that support them are getting the advantage of our efforts without contributing a single cent.

You are familiar enough with the fruit industries of this state to know positively that raisins today would not be worth 2c a pound if it were not for this organization. This is made possible by the sacrifice of 6500 growers, who have put up the capital and are selling their crops on the same terms

What Will the Ballot Do for Woman?

In discussing the suffrage movement for women, which will come to an election in California this fall, many are apt to consider only the effect of woman upon the ballot. They point out that she knows little of politics, that she will be ruled by sentiment, that her husband, her father, her sweetest will tell her what to do. But she will not consider the matter seriously, and various other odds.

But a leading suffragist says that in having the right of suffrage the first thing to be considered is not the effect of woman upon the ballot, but the effect of the ballot upon woman.

And this, she thinks, will be altogether better.

Some women are shallow, indifferent, lazy. These may vote as their husbands and fathers direct. But the great mass of American women are conscientious. They do not shrink from duties. And if a duty is placed upon them, they will measure up to it. And this says the suffragist, will broaden and develop them.

The majority of American women, if the vote comes to them, will use it without attempting to know something of the subject. They are not so superficial and idle-headed. To know, they must read, study and observe. To do this will be of great benefit to them and to the country.

Let a woman begin to look into school and municipal management, into conditions of working women and children as affected by political mismanagement, into the practice of taxation without representation, which is the state under which women who own property live, and her outlook is bound to grow immeasurably larger. Whether she is a wife or whether she is a wage-earner, it will ultimately lead her to manage her share of things more intelligently. A woman is a better mother, better able to bring up her children wisely, for having a wider horizon. And no sensible, sane woman will neglect her home and children for these things, because a few hysterical women may do so. It is no reason for blocking the road to development for all women.

To my way of thinking, concluded a sound thing for women and, at the start, because of her effect upon the ballot, but because of the effect of the ballot upon her. Advancing the standard of intelligence of a people is advancing the country's most important thing. And this when you are placing the ballot in the hands of the conscientious, bright women of America.

At any rate, it is one phase of the question worth thinking about, isn't it?

BARBARA BOYD

**GO TO SUNDAY SCHOOL MOVEMENT TO START**

John Alexander, Chicago Business Man to Open Campaign

"Go to Sunday School" movement will be given impetus in Fresno by the coming visit of John Alexander, business man of Chicago, first secretary of the Boy Scouts and a "Men and Religion" expert, who is scouring the state in the interest of the "teen-age" Sunday school pupils. Alexander will be here Friday and will address a mass meeting at 12 o'clock, Monday, before the commercial club members at their luncheon. The subject will be "Youth as a Civic Asset."

A meeting will be held at 5:30 o'clock Friday afternoon in the Calvary Presbyterian church, Tuesday and Wednesday. Alexander will meet at this time with the state secretary, C. R. Fisher, and the county executive, Sunday school committee.

At 6 o'clock the same afternoon he will meet with all the pastors and Sunday school superintendents and teachers of the "teen-age" and representatives of "teen-age" classes. Alexander will address the audience at the revival tent, N and Mariposa streets, just before the Dan Shannon sermon Friday night.

**IN THE LODGE ROOM**

Macabees  
Held at the West No. 58, Women's Benefit Association, held an enthusiastic meeting Wednesday afternoon. Mrs. Georgia Duncan, district deputy, was present and invited the officers for the ensuing year. At the conclusion of the business session a light luncheon was served. Wednesday, October 27, the Commercial Club luncheon will be held at the O. C. W. hall. Mrs. Minnie Wyndoloff, great command, will be present and preside at an interesting session.

Royal Neighbors  
Camp No. 2299 Royal Neighbors will meet in regular session this second Thursday evening in Odd Fellows hall. There is business to be done and candidates to be initiated. It is requested the Neighbors meet a little early, as the hall room is expected out for practice.

All visiting Neighbors are invited to this camp.

that we offer you. There is not one of these 6500 growers but what could sell for the same high price that you can sell for if they were free to do so and the organization still existed. In other words it is not because you are more capable than the rest of the world, but because you are taking advantage of our efforts that you can get the high price that you get.

It seems to me almost unthinkable that a great organization like yours, for the difference of a few thousand dollars, would take advantage of the efforts of thousands of growers that, as compared with you, are but poor men, and I am writing you this letter with the hope that it is not too late and that you still will think better of the matter and deliver your crop to us on the same terms as other growers.

I wish to say, not as a threat, but as a simple statement of facts, that as surely as you let the temptation to get a few dollars extra stand in the way of what you must consider to be the right thing, there will be a day of reckoning that will cost you far more than the temporary gain will be.

The raisin growing district now contributed generously to your welfare in the first ten or twelve years and there is not one percent of the entire number of raisin growers, or for that matter the entire number of people living in the San Joaquin valley, but what believe in the CALIFORNIA ASSOCIATED RAISIN CO. and recognize the right of your feeling toward either Mr. Madison or the writer, regardless of any differences that we may have had in the past, you owe something to the community that has done so much for you, and this is a duty of honor which is greater than a money debt, and we can better afford to lose your crop than you can afford to repudiate that debt.

Yours sincerely,  
WYLLIE G. GIFFEN.

**Washing Won't Rid Head of Dandruff**

The only sure way to get rid of dandruff is to dissolve it, then you dry it entirely. To do this get about four ounces of ordinary liquid arsenic; apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single dandruff and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop at once, and your hair will be fluffy, healthy, glossy, white and black and feel a hundred times better.

You can get liquid arsenic at any drug store. It is inexpensive and never fails to do the work.

# Society

Miss Florence Hooper of Baltimore, and Mrs. William F. McDowell of Evanston, Ill., treasurer and president of the Women's Foreign Missionary Society, who will address an audience at the First M. E. church this evening.

Miss Leora Schaeffer, whose marriage to Sam Sample will be an event of October 23, is to be the honoree at an affair this afternoon, at which Miss Sally Sample will entertain a number of friends informally.

Mrs. Florence Bred was the hostess at a very delightful afternoon of cards yesterday at her home on 1st street, where she entertained the Wednesday Afternoon Card club and several additional friends. Auction bridge was the afternoon's diversion, and the souvenir for highest score was

awarded to Mrs. Charles Ward, at the conclusion of the afternoon.

Among those who shared the pleasure of the afternoon with club members were Mesdames Arthur Anderson, Richard Hodgkin, Herbert Gundelinger, Frank H. Short, Gus Hogover, Miss Adeline Thornton.

The club will be entertained next week by Mrs. Arthur Perkins at her home on Peralta way.

Mrs. S. L. Wiley, who has been ill in San Francisco, has returned to her country home northeast of town,

where she is recovering. She has with her, her sister, Mrs. V. M. Clinton, and Mrs. Charles Stoney, of Long Beach.

Mrs. Harvey W. Swift left yesterday for San Francisco where she will sojourn for a time.

Mrs. C. B. Shaver and her daughter, Miss Doris Shaver, will go to San Francisco today for a week's sojourn.

Mrs. W. H. Holland will preside at a luncheon today at her home on Fortship avenue, complimenting Miss Margaret Thomas of Harrodsburg, Kentucky, who is the house guest of Dr. and Mrs. Montgomery Thomas.

Miss Pearl Hoffman and Mrs. Otto Wankowski leave today for San Francisco, after a very delightful visit in Fresno as guests of Mrs. Thomas W. Patterson.

Mrs. Frank Helm will entertain a number of young folk on Friday evening with a dancing party at the Sunnyside Country club, complimenting her son, William Helm, who will be at home from Belmont for the week-end.

Mrs. E. K. Ely and Misses Nora and Helen Ely left last night for a visit at the Panama Exposition.

Mrs. Moreau Baird has returned to her country home after a visit to the Exposition and other places of interest about San Francisco. She was among the guests at the luncheon and reception given by the Colonial Bazaar recently in the Massachusetts building.

## District Club Events

President's Day will be celebrated by the members of the Fatherhood Club at the clubhouse, when a luncheon will be featured. Quite a program is to be presented. The program will be given largely by the Fatherhood Club, which is augmented by vocal numbers by Warren Walters, baritone, and Daniel Popovich, pianist, and Miss LeRoy Payne, soprano. Informal music will be provided during the reception, which will be held on the first floor. Following the program, Miss James and Mrs. Rosalind Davies providing vocal and piano selections.

The Wednesday Club celebrated its opening after the summer vacation yesterday with a "President's Day" at the home of the executive, Mrs. J. E. Webb, on M street. The reception rooms were almost swarming in their decorations of roses and carnations, the autumn flowers, the Christmas trees, and a realization of the season. Answering roll call, the members gave recollections and experiences of the Panama-Pacific Exposition, Mrs. E. E. Cook being awarded a souvenir for humorous anecdotes relative to the Exposition. A very delightful vocal solo was contributed by Miss Margaret Miller, which added to the pleasure of the afternoon. An adjournment was made to the dining room late in the afternoon, where the club members were lavishly carried out in all the appointments. During a clever stunt contest, Mrs. H. C. Tupper carried off honors in the visible form of a lovely prize. Messages of congratulation from absent members were read.

Besides the club members, both active and associate, there were present Mrs. F. W. Webb and Miss Anna Webb of Rolla, Mo.; Mrs. J. P. Holt of Oakland; Mrs. J. C. Rhodes, Mrs. J. W. Clelland, Mrs. F. Mortimer, Miss Barnett and Miss Margaret Miller. The club will convene next week at the home of Mrs. E. A. Rev. T. T. Giffen being scheduled to give a reading on this occasion.

The Leisure Hour Club held a very interesting meeting yesterday afternoon at the home of Mrs. J. C. Cooper on M street. Mrs. W. P. Miller giving an interpretation of Tennyson's "Queen Mary."

Next Wednesday afternoon Miss Sadie Clark will be the hostess at the club meeting to be held at the home of Mrs. J. C. Hoxie on I street. Mrs. E. D. Edwards to conduct a round-table on current events.

The Prospectors, a Porterville club, met on Tuesday evening at the home of A. G. Hays in Morton street, the study of the evening being devoted to the novel of Winston Churchill, "A Fair Country." Aside from a critical consideration of the work, the discussion of the underlying theme of the book brought out a number of interesting talks from the members on problems of sociology and economics. Much of the time of the club this year is to be taken up with reading of the better class of works of fiction.

Last Monday afternoon the Women's Improvement Club of Sanger voted to make the Study Club a branch of their musical program by Miss Adelheid Sauer, German games were then played, a prize hunt being an entertaining feature.

Mrs. William Finner McDowell of Evanston, Illinois, general president of the Women's Foreign Missionary Society, and Miss Florence Hooper of Baltimore, general treasurer, are to be guests of honor at an informal reception this evening at the First M. E. church. The two officers are en route to Los Angeles, where the forty-sixth

work. They have made out their program for the remainder of the year and will meet every Monday afternoon as heretofore. The next meeting will be at the residence of Mrs. Dietrich, when the leader will be Mrs. C. H. Hayward and the subject will be California Authors. The last meeting was at the residence of Mrs. W. M. Barr and the leader was Mrs. O. J. Hudson.

The Literary department of the Modesto Women's Improvement club held its first meeting at 2:30 o'clock Tuesday afternoon in the club room of the Henry Library. A number of new members joined the department for study work. Mrs. L. L. Bennett is chairman of the department, succeeded by Mrs. C. H. Griesold, who resigned last spring when elected president of the Improvement club. The study of Browning's "The Ring and the Book" will occupy the entire year. The literary department is open to all women who are interested in study. Meetings will be held the second and fourth Monday of each month, alternating with the meetings of the Improvement club.

The Modesto Chautauque Literary and Scientific circle held its regular meeting at 2:30 o'clock yesterday afternoon at the Methodist Episcopal church. The circle will meet once each month on Wednesdays instead of Fridays, as formerly.

The program for this meeting was as follows:

The Chautauque Song.  
Resumé of the Week's Events—Mrs. H. Rice.  
Review of Chapter 4—Mrs. D. J. Gerard.  
The Fur Trade and Explorations—Mrs. Velma Turner.  
The Huguenots—Mrs. W. C. LeHane.  
Quick Chapter VI—Mrs. Garrison Turner.  
Review of the French and Indian War—Miss Ruby Marshall.  
Sketch of Patrick Henry—Mrs. B. O. Wheeler.  
Causes of the Revolution—Mrs. G. C. Austin.  
Townshend's Policy—Mrs. J. H. Himmelscheider.  
Samuel Adams' Circular—Mrs. Garrison Turner.  
Protests of Virginia Assembly—Mrs. C. O. Lee.  
The Committee of Correspondence—Mrs. R. S. Marshall.  
The Boston Tea Party—Mrs. H. A. Russell.

The Lemon Cove Civic club held its first meeting of the season at the Lemon Cove hall, Tuesday afternoon. The president, Mrs. H. Glinner, sent in her resignation. It was accepted and a vote of thanks given her for her good work as president. The question of her successor was left over until next meeting.

At the regular meeting of the Women's Improvement club of Riverbank Tuesday, the club voted to give a flower fair, the date set for Tuesday, November 16, and the following committeemen put in charge: Premium list, Mrs. D. H. Grant, award of premiums, Mrs. E. C. Abel; arrangement, Mrs. Grant; candy department, Mrs. W. C. Kuebig; white sale, Mrs. Harry Giller; program, Miss Davis; ice cream, Mesdames Haelet and Fletcher, curio department; Mrs. O. E. Johnson; cash, Mrs. C. C. Klahr. The club will also give a chicken picnic supper Friday, October 29, with Mesdames J. B. Pressley and Reichman in charge of the committee work. A series of lectures by Prof. Rinn of Oakland is being arranged for in connection with the Parent-Teacher association.

## NEW UNION TANKER TO ADVERTISE STATE

Will Carry California Oil  
Product to All Parts  
of the World

LOS ANGELES, Oct. 13.—The new oil tanker, *Union*, which is being built for the Union Oil company at San Francisco by the Union Iron Works, will carry the product of California to all parts of the world. It will be completed in January.

Under impressive circumstances the first rivet in the hull of the Pacific liner, designed to be the largest oil carrier on the Pacific, was driven by Mayor Ralph of San Francisco, among those who witnessed the ceremony was E. W. Clark, vice president in charge of transportation for the Union Oil company.

The tanker is to be built along the latest designs and will have a capacity for 80,000 barrels of oil. When driving the first rivet into

the great steel hull, Mayor Ralph said: "This tanker, loaded with California oil and destined to sail probably to all the important ports of the world, should prove a wonderful advertisement for the city whose name it will bear. The Union Oil company is thus showing its loyalty and patriotism to the state, as it has always done in the past."

A few months after the Los Angeles slides off the ways another tanker, a sister ship, will be launched. This latter tanker will be named the *La Brea*, after the oil fields near this city and the famous asphalt pit, where many prehistoric relics have been uncovered.

### BARGE ADRIFF

SAN FRANCISCO, Oct. 13.—Advises received here today stated that the barge *Washington* heavily laden with lumber was cut adrift in a waterlogged condition Monday night off Cape St. Elias, Alaska, by the tug *Pioneer* which arrived at Cordova from Port Blakely today.

### NOTICE

\$100.00 reward for the arrest and conviction of person or persons for stealing milk or cream belonging to the patrons of the Danish Creamery association.

## TO REPLACE DERRICK DESTROYED BY FIRE

Mrs. Mary Francis, Woman Operator, Plans for Field Activity

MARICOPA, Oct. 13.—Preparations are being made by Mrs. Mary Francis, owner of the West Virginia lease on the Maricopa flat, to move one of the derricks from another well on the property to the No. 3 well to replace the one destroyed about two weeks ago by fire. The derrick will be moved over the well and will be refitted for work. The No. 3 well was producing at the time the derrick was destroyed and since has shown signs of being a good paying proposition. As soon as the derrick is up the well will be worked and will be allowed to produce again.

Mrs. Francis is one of the pioneers of the Sunset-Midway field, and is interested in much valuable oil land, most of which is in litigation over the title. She has caused the West Virginia property to be started up and will keep it going until the three wells on the property are placed on the producing list.

## GENERAL PETROLEUM TO BUILD PIPE LINE

Will Carry Product of Lost Hills Field to Main Line to Los Angeles

McKITTICK, Oct. 13.—The General Petroleum company, the largest oil corporation in the state, with interests in the Coalinga, Maricopa, Midway, Belridge, Lost Hills and Fullerton fields, and controlling topping plants at Mojave, Vernon and Kern, together with several tankers, is completing arrangements for the construction of a 6-inch pipe line, to extend from the Bear Creek division of the company to Lost Hills, for the transportation of oil from the Belridge and Lost Hills districts and Bear Creek, connecting with the company's main line to the city of Los Angeles. Bear Creek is six miles southeast of McKittick, and Lost Hills, twenty-four miles north of here, and it is expected that the work of hauling, distributing and ditching for the 30 miles will require the services of 100 men. It is planned to begin the building of the line within a short time, and estimating the probable progress at nearly one mile per day the task will be pushed as rapidly as possible. In order that early fall rains may not interfere, some of the pipe line has been received, and the remainder will be shipped without delay.

The General Pipe Line company transports for the General Petroleum company oil from the Midway district to Los Angeles, a distance of 145 miles, through an 8-inch pipe line, the capacity of which is 25,000 barrels every twenty-four hours. A branch line runs from Los Angeles to Mojave, fifty-one miles distant. The pipe line of the General Petroleum company, in crossing the summit of the Tehachan mountain reaches, an altitude of 4125 feet above sea level. The Mojave topping plant of the General Petroleum company has a capacity of 200,000 barrels of crude oil per month; that at Kern can handle 200,000 barrels, while the capacity of the one at Vernon is 300,000 barrels monthly. About twenty wells are operated in the Belridge field by the General Petroleum company, which has in the Lost Hills territory in the neighborhood of fifty wells. There are also one or two small wells in the Midway district credited to the company.

The extension of the operations of the General Petroleum company on the West Side, as illustrated by the proposed construction of the "Creek-McKittick-Belridge-Lost Hills" pipe line is indicative of even greater strides in the near future. As judged by careful observers of the trend of events associated with the development of the oil industry in California, locally the building of this line means the distribution of a large amount of money in material, wages and operation, as well as the increased facilities provided for the handling of the company's product in the districts affected.

## BRIEF OIL NOTES OF MIDWAY FIELD

TAFT, Oct. 13.—The General Petroleum company on the Globe division, on section 15, 21-23, in the North Midway, has cemented off its new well. It is to be allowed to stand five days, after which it will be tested out. The No. 6 well of the Mascot Oil company, on section 26, 32-23, in the Twenty-Price hill district, which is being drilled is down 1450 feet with indications of entering the oil sand in the near future. This is believed to be on the property, the other wells ranging from a depth of about 900 feet to 1400 feet.

Rig Builder Bruce Stitzinger has completed the derrick for the No. 13 well of the General Petroleum company, on the Brunswick division, on section 26, 31-23, and drilling is now in progress. On the Globe division the derrick is up for the No. 29 well with drilling started, on section 15, 31-23. The No. 2 derrick on the house of the Potter Oil company, on the property of the former Section Fifteen Oil company, on section 15, 31-23, in the North Midway has been moved about 50 feet to a new location, where drilling is to start in the next few days. E. L. Stitzinger was in charge of the moving.

The General Petroleum company in the Belridge district has completed the moving of the No. 44 derrick to a new location about 140 feet distant from its former point.

### WRECKAGE CAST UP

ST. JOHN, N. B., Oct. 13.—Wreckage from a steamer believed to have been the *Scowen* or *Collier* from the Gulf of Mexico, which has been missing two weeks, was found today on the north coast of Prince Edward's Island. The *Kronprinz Olaf* sailed September 26 with a heavy cargo and it is believed she went down in a gale that swept the Gulf of St. Lawrence the following day. She carried a crew of 35 men.

### SWEATY FEET

An well as tired and swollen feet can be cured with Smith's Foot Sweat Sand. Guaranteed to give satisfaction. Only at Smith Bros. Drug Store.

## Gypsy Boots In All Very Latest Styles \$3.50

## You're Safe In Buying American Lady Corsets

You may think one corset looks as good as another—it may—but perhaps the value isn't there, a good reason why it is safe to buy American Lady Corsets. They've stood the test of time—they're good thru and thru—the designs are advanced and authentic—the materials are always the best for wearing the longest—and as for fitting qualities, American Lady Corsets lead.

Moreover, there are many American Lady designs, both back lace and front lace, insuring a proper model for every individual figure. A corset is as good as it should be only when it is faultless in fashion, fabric, finish and fit.

You will find all this in American Lady Corsets. Why not try your American Lady model?

Prices from \$1.00 to \$5.00

We are sole agents for McCall Patterns, 10c and 15c. You can depend on them.

## TALKS OF HEALTH

By DR. W. A. EVANS  
Noted Chicago Health Authority

## Cheer in a Sanitarium.

The following are some of the most attractive and interesting cases which have been treated in the sanitarium during the past few months. The first case is that of a young man, who was brought to the sanitarium by his mother, who was very anxious to have him cured. He was a very healthy and active young man, but he had been suffering from a very serious illness for several months. He had lost his appetite, and he was very weak and thin. He had been in the hospital for several months, but he had not improved. He was brought to the sanitarium by his mother, who was very anxious to have him cured. He was a very healthy and active young man, but he had been suffering from a very serious illness for several months. He had lost his appetite, and he was very weak and thin. He had been in the hospital for several months, but he had not improved. He was brought to the sanitarium by his mother, who was very anxious to have him cured.

The second case is that of a young woman, who was brought to the sanitarium by her mother. She was a very healthy and active young woman, but she had been suffering from a very serious illness for several months. She had lost her appetite, and she was very weak and thin. 7-Sutherland Sisters-7, Hair Grower and Scalp Cleaner

1933  
Mariposa St. **San Joaquin Drug Co.**  
THE Rexall Store  
Phone 255

He is left alone  
and he generally goes to sleep soon. He  
continued not to roll over and not to  
talk. In about a week they let him get  
up in a chair.

"I feel that the cold winter air on  
this porch will put me on my feet in  
about a week," he said.

**Baby Probably Is Hungry.**  
Anxious Mother writes: "My baby is  
eight months and two weeks old, has  
four teeth, is large but thin and pale.  
I give him milk with Mellin's food every  
three hours. He chews his fingers be-  
tween times. Also gives him orange juice  
in the morning and tooth between but-  
ter. Is this enough feeding for a baby  
this age?"

**Do Not Wean Baby.**  
Grateful mother writes: "My baby was  
born in November. She is restless,  
and with difficulty, not gaining but hold-  
ing her own. I nurse her and want to  
wean her, for before each period of  
menstruation she is greatly upset. Do  
you feel it will be perfectly safe for me  
to wean her any time now? Will the  
weather permit? Will you kindly give  
me a formula for the rich her (top  
milk for her)?" She has been breast fed  
entirely. Her sister had eczema after  
having been weaned six months. The  
formula was too rich. This baby was  
born at birth, but weighs over seventeen  
pounds now, though has gained little for  
the last three months."

**Stitch in the Side.**  
E. F. asks: "What causes a 'stitch in  
the side' while walking or running and  
why stooping over for an instant relieves  
it completely?"

**NO EXPOSITION  
COMMISSION MEETING**  
Yesterday was the date for the regu-  
lar meeting of the Fresno County  
Exposition Commission, but owing to the  
inability of several members to be  
present the meeting was postponed  
until a later date. It may be held on  
Saturday.

The Silverman Institute

RECKLESS DRIVER  
SCORED BY JUDGEPhysicians Who Order  
Fast Driving Also Hit;  
Heavy Fine

"Motor car drivers who come into  
this court must be warned. The law  
if they do not expect to pay a heavy fine,  
I'll let you—and the physicians, too—  
know what rights you have when it  
comes to speeding. The people of this  
city must be guaranteed safety at all  
times."

Such was the rebuke Judge Graham  
yesterday meted out to S. M. Scott,  
chauffeur for Dr. E. L. H. Burks, before  
imposing a fine of \$50 on him for fast  
and reckless driving. Scott was ar-  
rested by Sheriff McSwain on October  
7 for driving his car over forty miles  
an hour on Van Ness avenue. Scott  
defied the sheriff to arrest him, say-  
ing that he was driving for a doctor on  
an emergency call. Dr. Morgan, in  
Dr. Burks's office, stated on the stand  
that he had ordered Scott to drive  
faster than the limit.

"In such a case, the physician should  
be arrested, too," said Judge Graham.  
"The chauffeur, however, has no right  
to break a law because he is ordered  
to do so. If it is a true emergency  
case, the offense is thereby mitigated,  
but then the doctor must submit  
proof."

Deputy District Attorney Henry  
Hawson called attention to the large  
number of fatal accidents due to care-  
less driving in the past few months.  
"It is getting so that a pedestrian is  
no longer safe," said Hawson. "For a  
long time the district attorney's office  
has considered trying some of the par-  
ties in these cases. Personally, I do  
not think that a court can be too  
severe with speed maniacs."

PROBATION FOR DEAN  
OFFICERS CONCLUSIONLeniency Suggested for  
Man Who Violated  
Local Option Law

Suggesting that should probation  
be granted W. H. Dean, who pleaded  
guilty to violating the local option law  
in Kingsburg and who applied to the  
court for probation, Chief Probation  
Officer Sessions, to whom the matter  
was referred, in his report to the court  
yesterday, recommending that the ap-  
plication be granted.

"On account of the extreme age of  
the defendant, I am not inclined to  
recommend that the application for  
probation be denied. There is no doubt  
in the minds of the probation officers  
that this business has been carried on  
in the Dean household. If the defend-  
ant had actually sold the liquor  
himself some one else in the house has  
done so. Mr. Dean, however, assumes  
the responsibility for the action of his  
household, saying, as the court will  
note in a previous statement made by  
the probation officers, that he is the  
master of the household and responsi-  
ble for it. Such being the case, Mr.  
Dean is responsible for a disorderly  
house, according to his own admis-  
sions."

"Were the defendant a younger  
man and able to bear imprisonment,  
and were that the only form of pun-  
ishment, I should recommend that the  
application for probation be denied. This  
illegal business of selling liquor has  
undoubtedly been carried on for a  
long time and for a considerable  
profit. As the expenses of securing  
convictions in these cases are heavy, it  
seems to me that such cases should  
call for imposition of a fine."

"If probation should be granted I  
suggest that the terms of probation  
provide that all the other entries to the  
house be closed; that there shall be  
kept a list showing the names and  
residences of every person who comes  
to the house during the time of proba-  
tion; that the house be at all times  
open to the officers for an opportunity  
to search the premises of probation are be-  
ing carried out."

"Under such or similar conditions  
and so far as the imposition of prison  
sentence be concerned, I recommend  
that the defendant's application for  
probation be granted."

SING LEE GUILTY  
JURY'S VERDICT

Before a jury in Judge Austin's de-  
partment of the Superior court yester-  
day, Sing Lee, of Kingsburg, was con-  
victed of violating the local option law.  
He will appear Saturday morning for  
sentence.

The case against Young Ku of San-  
ger, charged with a like offense, was  
dismissed.

QUICK ACTION IN  
SUIT FOR DIVORCE

Because she chased him all over  
their home with a gun, Ernest M.  
Hugerty brought suit for divorce  
against Effie M. Hugerty, the hearing  
being before Judge Austin. An inter-  
locutory decree was granted, the case  
occupying but a few minutes of the  
time of the court.

TO CLOSE UP GAP  
IN STATE HIGHWAYCommercial Club of Fresno  
no Urges Action That  
Will Complete Link

At a meeting of the board of direc-  
tors of the Commercial Club of Fresno  
yesterday, action was taken regarding  
the completion of a gap in the state  
highway in the San Joaquin Valley.  
The following preamble, recommendation  
and resolution was unanimously  
adopted. It follows:

"It having been made to appear to  
this board that there is now a gap in  
the state highway between the city of  
San Joaquin and the city of Fresno,  
and that it is the duty of the board  
of supervisors of Tulare county to  
representations to this board that the  
board of supervisors of Tulare county  
are willing to and have attempted in  
the past to purchase a sufficient quan-  
tity of state highway bonds for the  
purpose of completing this state high-  
way through Tulare county, in accord-  
ance with the specifications and plans  
adopted by the State Highway Com-  
mission, but that it has been unable  
to purchase a sufficient amount of such  
bonds by virtue of the fact that the  
commission has failed to allot for that  
purpose such bonds.

"Now, therefore, recognizing as we  
do the importance of finishing this  
state highway by the closing of said  
gap, at as early a date as possible, in  
order that there shall be continuous  
highway clear through the San Joa-  
quin Valley, and also recognizing the  
benefits which would flow directly to  
Tulare county, and indirectly to every  
other county in the Valley, as well as  
the traveling public, we, the board  
of directors of the Commercial Club of  
the City of Fresno, County of Fresno,  
State of California, do hereby strongly  
recommend that a sufficient number of  
these state highway bonds be allotted  
for the purpose of completing this  
gap, and that the county of Tulare  
be permitted to purchase the same,  
and further strongly urge the state  
highway commission of the state of  
California to co-operate with the  
board of supervisors of Tulare county  
in the completion of this gap in the  
state highway and be speedily  
constructed; and be it

"Resolved, That a copy of this en-  
dorsement and recommendation be  
spread upon the minutes of this club,  
and copies thereof be sent to the board  
of supervisors of Tulare county, and  
also the State Highway Commission,  
as well as to other civic bodies in the  
San Joaquin Valley, hereinafter show-  
ing an interest in this same matter."

Will You Spend One Cent  
and 10 Minutes  
daily on music?

Mr. Business Man, you go  
home tired and sometimes  
worried—what you need is re-  
laxation and inspiration—why  
not turn to music? You will  
find in making music the most  
wholesome, inspiring and vi-  
talizing relaxation. Bear in  
mind, we suggested making  
music—you can make it—all music is available to you  
with the wonderful PLANOLA. At first you will spend  
ten minutes every evening playing your favorites—you  
will soon become so absorbed and so entertained that the  
ten minutes will stretch to an hour, and you will prefer  
to play masterpieces—not only you but all your family  
will play and enjoy music. As to the cost—the price of  
a PLANOLA and sufficient player music, if spread over  
the busiest portion of your life, would hardly amount to  
a cent a day.

Mr. Business Man, isn't your health, your efficiency,  
your happiness, and the happiness of those dependent  
upon you, worth a cent a day?

## WILL START MOVE FOR POLYTECHNIC SCHOOL HERE

San Luis Obispo People  
Hostile to One There  
Say Fresno Boys

Chamber of Commerce  
Directors to Act On  
Suggestion

Suggestions from two Fresno boys, who are students of the California Polytechnic school at San Luis Obispo, that the school be moved to Fresno, were heartily received by directors of the Chamber of Commerce at their meeting last night. Copies of the letter addressed to the Chamber of Commerce will be mailed to Fresno members of the state legislature. The letter is from Carl L. Parker and Walter D. Travolta.

According to the Fresno boys' students, the people of San Luis Obispo and vicinity are actively hostile to the school and only recently tried to vote bonds for a polytechnic school to compete with the state institution. They point out that the land in that vicinity is decreasing in value while that around Fresno is going up all the time. Parker and Travolta state the time is now at hand to start a fight to get the school located here. San Luis Obispo is an inconvenient location, they say, and hard for students to reach. The attendance has fallen off in the last two or three years and is now down to approximately 140 students. This is not due to the lack of good instructors, but to surrounding influences, the Fresno boys claim. They also state that the land will not produce the crops that can be grown on the fertile land around Fresno.

The directors decided to name a special committee to call upon Chester J. Howell to urge that he use his influence to have the regents of the State University put Kearney-Vincent school, an agricultural school, at Fresno. A letter urging this action will be mailed to Mr. Howell.

William Robertson will attend the convention of the California Development board at San Diego, November 12 and 13.

## CUMBERLAND SYNOD OPENS ANNUAL MEET

Program of Today's Services  
Announced; L. A.  
Minister in Charge

The annual meeting of the Cumberland Presbyterian Synod, opened in this city last night with services at the Cumberland church at 10 and Merced streets.

The program for today's services follows:

9 a. m.—Devotional service.  
11 a. m.—Sermon, Rev. Edward Johnson of Merced.  
2:15 p. m.—Business meeting.  
7:30 p. m.—Synod of Cumberland Presbyterian church will convene, Rev. W. L. Williams, retiring moderator, will conduct the meeting.

## RELIEF COMMITTEE NEEDS GREATER SUPPORT

Greater Fund Needed  
This Winter: May Re-  
quire \$1,000 Monthly

Plan Shelter; Committees  
to Ask Increase in  
County Appropriation

To carry on the work begun last year, the Citizens' Relief Committee will require more financial support from the city and county governments, from business and professional men, from civic organizations, and, in fact, from every man and woman in the county.

Such was the unanimous opinion of more than a score of business and professional men, who with several city and county authorities met with the executive committee in Central hall yesterday afternoon.

It developed at the meeting that among the other things required of the committee will be the erection of a shelter of sufficient size to house 300 men; the providing of work for an equal number, and the raising of at least \$1,000 a month from November to March for relief work.

Committees were appointed and several methods of procedure suggested toward the launching of a money-raising campaign larger in every way than the one of last year.

Outlines Work  
William Glass, president of the committee, outlined the work before the city. Last year, he pointed out, the committee had cared for from between 80 to 240 men daily during the winter months.

"All this was accomplished on \$3,500 more than that given us by the county—which was \$250 monthly," said Mr. Glass. "We have been commended highly for the amount of good we accomplished with such a small fund. The coming year will require an even greater expenditure and some steps must be taken to insure the permanency of the organization."

The speaker stated that the work of the relief committee did not attract crowds of idle men to the city, as was so often reported.

"Fresno," he said, "has gone less for the unemployed than any city this size in the state, with the possible exception of Sacramento."

"Berkeley raised \$15,000 last year. Oakland and Los Angeles did far better by their needs, and even Turlock outstripped Fresno."

"It is a situation that we must meet. The men will be without employment for the simple reason that there will be none. They are desperate. Last year we found that 85 per cent of the men would work at anything if given an opportunity to do so."

An offer to furnish the labor necessary to erect a shelter was made by the local carpenters' union at a meeting Tuesday night. At the meeting yesterday, a motion was passed instructing the president to appoint a committee to wait on the city trustees and ask for \$1000 for the materials for the shelter. The committee of six will be appointed by William Glass within a day or two.

A possible site for a building has been offered by a public-spirited citizen. The ground is in the block between E and F streets and Fresno and Marinosa streets.

The committee will also be instructed to ask that the supervisors substantially increase their monthly contribution to the fund. Last year the board paid \$250 to the committee. They will be asked to give \$1,000 a month for five months during the year that the shelter is maintained. All of the money given by the county is to be used in aiding needy Fresno county people. The allowance from the city, which amounts to \$125 and which has been used to keep up the municipal employment office, may be asked to be doubled by the committee.

"It is the duty of every man and woman to give," said Sig Wormser, one of the active members of the executive committee. "Ten cents a month from each man in Fresno would do the work, but we are not able to get all of them to contribute. However, it is the work of the entire people, and it is to them that we should direct a special appeal."

Several plans for raising the money were discussed at length. Informally, "the aid of the county and city police officers was pledged by Sheriff McSwain and Chief Goshing. Both declared that crime was kept to a minimum last year through the efforts of the committee."

The clergy of the city were well represented. Several ministers gave short talks in which they promised their unqualified support to the committee in its work.

Members of the Junior and Intermediate classes of the Y. M. C. A. will hold a Bible rally dinner at the Y. M. C. A. building at 6 o'clock tonight. The pennant won by the Purple team last year for Bible study, attendance and gym work, will be presented to the winners by the captain, Riley Stearns. Between fifty and sixty are expected to be present.

## Make Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup  
Easily and Cheaply  
Made at Home

If some one in your family has an obstinate cough or a bad throat or chest and that has been hanging on and refuses to yield to treatment, get from any drug store 2 1/2 ounces of Pinex and make it into a pint of cough syrup, and watch that cough vanish.

Four the 2 1/2 ounces of Pinex (30 cents worth) into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 40 cents, and gives you a full pint—a family supply—of a most effective remedy, at a saving of \$2. A single dose usually overcomes a hard cough. Easily prepared in 5 minutes—full directions with Pinex. Keeps perfectly and has a pleasant taste. Children like it.

It's really remarkable how promptly and easily this Pinex cough syrup breaks up tight cough and breaks the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent "cough-cough." A single dose for bronchitis, winter coughs, bronchial asthma and whooping cough.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in ginseng, which is as healing to the lungs as...

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex," and do not accept anything else. A guarantee of absolute satisfaction goes with this preparation or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

THE WOODWARD CO.

# Three Farm Problems Solved

Woodward's Alfalfa Meal Mill

Capacity 1/2 to  
2 Tons  
Alfalfa Meal  
Per Hour

A year ago meal grinders were a novelty, now we have over a dozen in operation around Fresno and surrounding towns. Ours is the only cutter and grinder on the market that is made in large sizes. The self feeding table, the safety friction driving device, the hard wood frame, the grinding device that never chokes, the capacity in ratio to the power consumed, the wide range of sizes and equipments to select from—all these appeal to the purchaser.

Buy a grinder. It saves half your hay, the cows and hogs do better and you can safely feed the first cutting, no matter how full of alfalfa.

Write us and let us submit prices.

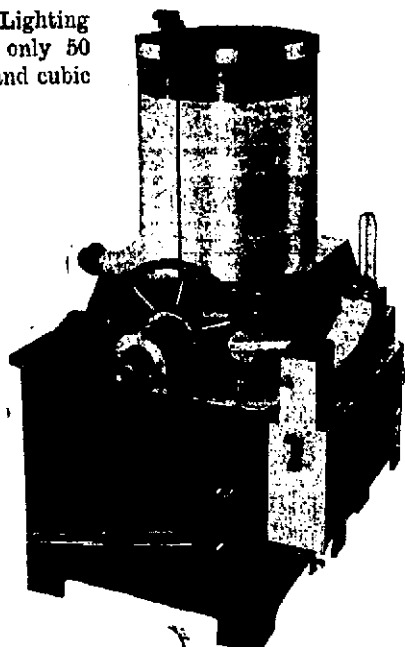

THE WOODWARD CO.

Automatic Gas Machine

Gas for Heating, Lighting  
and Cooking for only 50  
cents per thousand cubic  
feet.

An Automatic  
Machine That  
Makes Gas  
From Gasoline  
No Heat, No  
Compressed Air,  
No Meter  
Required.  
Absolutely Safe.  
Non-Poisonous  
Non-Explosive.

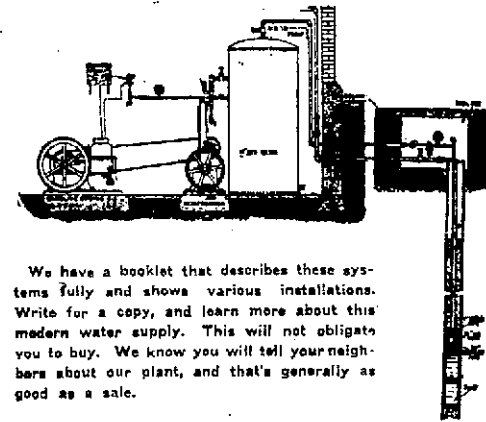

Another convenience for the country home. A machine that is as far ahead of the acetylene machines as they are ahead of kerosene. Cleaner, makes gas for 1-5 the cost, entirely automatic. Fill the tank with gasoline, wind up the cable, and the machine does the rest. Simple, long lived, and guaranteed. We put them in on 30 days' trial. Write for circular.

## Now You Can Have Fresh Running Water On Your Farm

But, you can get this pure, fresh, cold water only with the Woodward System, as ours is the only system in which the water is pumped direct from the well to the faucet. All other systems store the water in a tank where it becomes warm and flat-tasting and unsanitary.

The picture shows the construction of our system; you use either a gas engine or a motor to drive a small air compressor. This air compressor in turn pumps air into the storage tank—no water is pumped in but air. A pipe leads from this tank to our pump cylinder in the well. This cylinder is operated by the compressed air and when a faucet on the water line is opened this pump automatically commences to work, pumping the water direct from the well to the faucet. Under average conditions it takes about an hour for the engine to fill the tank with air and this charge lasts for two or three days. Aside from keeping the tank full of compressed air, the system calls for no other attention; it is absolutely automatic.

We have a booklet that describes these systems fully and shows various installations. Write for a copy, and learn more about this modern water supply. This will not obligate you to buy. We know you will tell your neighbors about our plant, and that's generally as good as a sale.

Just consider for one minute what such a convenience will mean to the whole family, especially to your wife and daughters. No more pumping of water by hand. No more lugging of heavy pails. No more trips through mud to the well-house. No more slow heating of water for washing the dishes, milk pans, pails, separators, etc. No more chilling and exposing trips to the foul-smelling, unsanitary, disease-breeding outhouse. No more carrying out of slops, dirty wash-water, etc. No more heating of boilers full of water on wash days. No more uncomfortable baths in half-filled tubs of tepid water. No more filling of the washing machine by hand. No more scrubbing of dirty porches on hands and knees. No more back-breaking household drudgery with the thousands of firing, useless steps from house to well, from teakettle, water-pail, from reservoir to dish pan and the thousand upon thousand of other little trips your wife and daughters make year in and year out because of the inconvenience of the supply of water for your household needs.

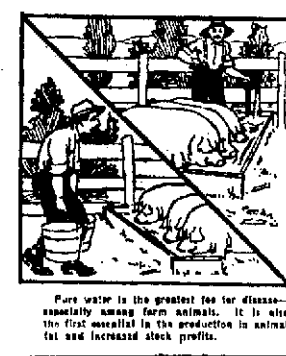

And suppose that fire should break out in your house or in one of the barns or sheds. Would you be helpless except for what little aid neighbors could give with buckets of water? Not if you have a water system installed on your farm. Just turn a faucet and throw a steady, continuous stream, right where it is most needed. The danger of serious loss to your property in case of fire is reduced a hundredfold if you have ready for use on your farm a high-pressure system like ours.

The system costs about the same as the old style systems in which the water is stored in a tank.

**The Woodward Co.**

J and Kern Sts.

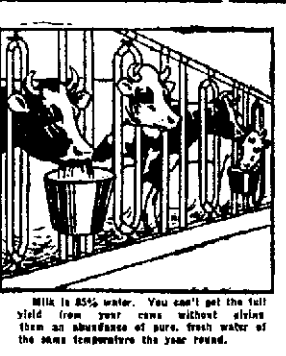

Fresno

Pure water is the greatest foe for disease, especially among farm animals. It is also the first essential in the production of animal fat and increased stock profits.

The personal comfort and enjoyment that will come to each member of the family from having an abundance of hot and cold water for toilet and bath cannot be estimated in dollars and cents, but by health and happiness.

Milk is 85% water. You can't get the full yield from your cows without giving them an abundance of pure, fresh water of the same temperature the year round.

For flushing out stables, pig pens and feed troughs—and for washing carriages, autos, etc., the Woodward System proves a wonderful convenience and time-saver, and keeps the stock and their surroundings clean and healthy.

With a modern Woodward Water System you can have a kitchen garden even in times of drought and keep your table supplied with all kinds of fresh, green vegetables throughout the entire growing season.

## FATHER WHO SPANKS HIS GROWN DAUGHTER IS PEACE DISTURBER

Court Does Not Question  
Father's Right But  
Objects to Time

Has a father the legal and moral right to spank his 17-year-old daughter because she attends a dance without his permission?

If the daughter resents the indignity and screams lustily, is she or the father guilty of the offense of disturbing the peace?

In the event of such a happening at midnight, are people in the apartment house justified in demanding that the noise stop, and later swearing to a complaint causing the father's arrest?

These were the knotty side lights that presented themselves to Judge Briggs for solution yesterday, when E. L. White of the Blackstone Apartments was tried for disturbing the peace and quiet of the neighborhood on the night of September 11.

White's daughter had come to a dance against her father's objection. When she returned at midnight, he whipped her. The girl went into hysterics. Finally J. J. Farrar, an occupant of the house, demanded that the noise stop. The father requested the daughter to be quiet, but she refused. A physician was summoned and the girl was carefully examined for any injuries. He diagnosed it as a case of hysteria, and declared that the girl would be all right when she "had her cry over."

Two days later Farrar swore to a complaint charging the father with disturbing the peace. Judge Briggs determined that the peace of the house had been disturbed through the loudness and time of the noise. The case will be appealed to the Superior Court today.

## Orphanage Kiddies Will Have Venison Feed Next Saturday

Venison steaks from a nice "spike" buck, with trimmings await the kiddies at the county orphanage. The deer has been confiscated by A. D. Ferguson, deputy fish and game commissioner, and will be turned over to the cook at the orphanage as soon as J. A. Hills and P. O. Cowart of Exeter are brought before a court in Visalia.

The men were arrested last week by Deputy Game Warden F. A. Bullard. He alleges that the men killed the deer across the line in Tulare county. They came up for trial tomorrow. The feed will take place Saturday.

It is against the law to kill a "spike" or year old buck deer at any time. The fine is from \$40 to \$500 or imprisonment for the offense.

## PHELAN GARAGE IS OPENED BY DANCE

Largest Garage Building  
in Valley; Cost Com-  
plete \$90,000

The new J. C. Phelan garage—a two-story-and-basement building—valued complete at \$90,000—was formally opened last night by a dance, attended by several thousands of people.

The garage is the largest in the city and contains the greatest amount of floor space of any building used exclusively for automobiles between San Francisco and Los Angeles.

The dance was conducted on the main or garage floor. Entertainment of the evening was the spectacular of a five-ton auto truck, which later, at 11:30, on a raised platform, and the dance of ballroom music. Dances were in progress from 8 o'clock until midnight.

## WANT PEOPLES ICE CO. ADJUDGED BANKRUPT

Petition Filed in U. S.  
District Court By  
Three Creditors

A petition in involuntary bankruptcy has been filed against the Peoples Ice Company of Fresno in the United States District court at Los Angeles by three creditors whose claims aggregate about \$3,672. Ray W. Hays of this city is attorney for the creditors. Although but three creditors united in the petition, Hays stated yesterday that there were about 130 creditors who have unsecured claims against the company totalling about \$27,000.

There is also a first mortgage on the real property, made out in favor of the Arctic Ice Company for \$10,000, a second mortgage for \$5,612.31 in favor of O. L. Everts and D. S. Ewing, an trustee, and a chattel mortgage of \$1,500 in favor of the Craycroft-Herold Brick Company.

The total indebtedness, exclusive of lease notes held by the Arctic Ice company, is a little more than \$47,500, according to Hays. The assets, exclusive of the lease notes, he places at \$27,500. The Arctic Ice Company holds lease notes totalling \$47,000, which now are preferred claims but which under bankruptcy proceedings would become common first claims. It is the Arctic Ice Company chooses to remove its property. This it may do.

The petition asks that the company be committed to a bankrupt act by allowing J. R. Hickman to secure a judgment for \$15, on September 4, by giving a second mortgage to Everts and Ewing on June 12 and by giving a chattel mortgage to the Craycroft-Herold Company on June 17.

Thirteen creditors, who claim the right to preferred claims on the ground they are liens, participated in the second mortgage and also in the election of the present board of directors.

The second floor contains the repair shop and parts department. The entire building is of concrete, steel and brick and is entirely fireproof. It is owned by J. C. Phelan, who has been an automobile dealer here for several years. The building will be occupied today.

## FIRST INTERURBAN CARS OPERATED TO J STREET

Regular Schedule On New Line to Start This Morning

Fifteen Minute Service to Be Established With Two Cars

Cars were operated over the Fresno Interurban railroad, to the corner of J and Market streets for the first time last night. Several cars were operated during the evening and passengers carried but no schedule was adopted. The principal purpose of running was to clean the tracks. Regular service will start about 7 o'clock this morning and cars will run at 15-minute intervals until after midnight. After today service will start about 6 a. m.

## FILE ANSWER IN SUIT FOR DAMAGES

On July 13 last Herbert Warrall was injured as a result of having been thrown from the Grand Central hotel, the complaint being sworn to by Mrs. Berry Good, who is proprietress of the hotel and Ross P. Odell. Later Warrall brought suit for damages against the two first named defendants, the sum of \$5000. Yesterday the defendants in the suit filed their answer in the Superior Court denying all allegations of the plaintiff.

The little cars that have been in use on the road outside of the city will be used down town until the new cars arrive. They are due in about 30 days.

Announcement was made last night that the Interurban will be completed to its next terminus, in the vicinity of Clovis, within the next 30 days. The line is completed to a point about three miles from Clovis and it is generally believed that it eventually will enter that city, but the officials of the road continue to assert that they have never intended the line was going to Clovis. There has been some talk of extending it to Centerville.

Sufficient time has elapsed since school opened for you to determine whether the boy or girl is doing good work. If not, better have their eyes examined for glasses
